The industrial development Bank of India (IDBI) and other financial institutions are working to find a solution to Dabhol Power Company's problems. The primary responsibility for finding an amicable solution to the various issues presently surrounding the projects lies with the two parties to the Power Purchase Agreement (PPA) viz., Maharashtra State Electricity Board (MSEB) and DPC as also with the Government of Maharashtra (GOM) , who have guaranteed the payment obligations of MSEB to the DPC under the PPA. However, the Government of India (GOI), who have issued a counter guarantee covering Phase-I, has agreed to facilitate early resolution of the issues and revival/restructuring of the project. The IFLs have initiated the selection process for identifying new sponsors to purchase the equity of the present off-shore sponsors of the project who have desired to exit from the project.
